

Adelaide's green office cleaners

“ Our cleaning business is not only good for the environment, but also for the health of our clients. ”

Go green @ work!

The majority of Australian businesses hire an office cleaner, yet only a handful of commercial cleaning contractors have adopted earth friendly practices.

Eco Natural® Commercial Cleaning was created to address an unmet need in the Adelaide marketplace for a green cleaning service.

Our mission is to provide a hygienic clean that protects human health, natural resources and the environment.

We provide 'green clean' solutions for environmentally conscious businesses located throughout Adelaide's CBD, southern metropolitan and hills areas.

Our natural cleaning products, simple recycling programs and green cleaning procedures will help create a healthier work environment for both your staff and your customers.

Green procurement can really enhance a business' green credentials, and thanks to our new Eco Office™ product range, you can now stock your stationery and supply cupboards with recycled and eco-friendly alternatives to all your consumable office supplies.

Contact us today and see how easy it is to go green at work, by switching your cleaning service and/or office supplies to an eco natural alternative.

“ The quality exceeded our expectations ”

I am writing to thank you for the excellent quality of your firms cleaning. We thought our previous cleaner did a good job and that is why we had used them for over ten years. We changed due to the staff deciding they wanted the firm to become more environmentally friendly. They, like most people, have become more aware of the environmental issues. It is a very pleasant surprise to see the quality exceeds our expectations. Thank you. ”

Richard Bates - Managing Director

“ No more expensive to hire a green cleaner ”

Eco Natural's quote was very competitive, and we liked that they could provide environmentally friendly alternatives to our consumable supplies. From the outset we were impressed with their professional presentation and customer service. ”

Sam White - Managing Director

“ Cleaning for health with natural products ”

It is essential that our health centre is cleaned with natural, low-allergenic cleaning products, for the health and well being of our patients and staff, as well as our environment. We were so happy to find a cleaning company that had a similar philosophy to us in regards to health and the environment as well as very friendly and professional staff. Eco Natural Commercial Cleaning were also able to tailor their proposal to meet our individual needs and budget. We can definitely recommend their services. ”
